

Municipal Council passes three Meadowview Solar motions

Oct. 7, 2024

Municipal Council for the Municipality of the County of Kings passed three motions dealing with some of the next steps in the proposed Meadowview Community Solar Garden project on Sept. 17, 2024.

In summary, Council's motions authorized:

- The establishment of a corporation to be jointly owned by Annapolis Valley First Nation, Glooscap First Nation and the Municipality of the County of Kings (an application requirement of the Province's Community Solar Program);
- The transfer of certain property interests held by the Municipality to the newly formed corporation (another application requirement); and
- The filing of an application to participate in the Nova Scotia Community Solar Program with final approval being subject to a future approval motion of Municipal Council.

The Partners will report back to their Councils and the community when the outcome of the application to the Nova Scotia Community Solar Program is known. This will help the Project Partners evaluate how, or if, the project could potentially move forward.

In the meantime, community members with questions are encouraged to reach out to the Meadowview Community Solar Garden project team directly by calling 902-690-6136 or emailing meadowviewsolar@countyofkings.ca.
