COUNTY *of* KINGS

## **Temporary Closure of Miners Marsh Trail Access Point on Klondyke Street**

**July 2, 2024**

The access point to Miners Marsh Trail off Klondyke Street in Kentville will be temporarily closed on Tuesday, July 2, from 9 a.m. to 4 p.m. This closure is necessary to allow for important underground work to be completed in the area.

While Miners Marsh will remain open to the public, we kindly ask all trail users to respect the barriers, work crews, and equipment in place and avoid the affected area until the work is complete.

The underground work planned for July 2 is part of the ongoing prep required for a larger project that will involve the replacement of infrastructure servicing the Regional Sewer Treatment Plant in New Minas. The work associated with this project is scheduled to take place this summer.

We apologize for any inconvenience this may cause and appreciate your cooperation and understanding as we work to improve our infrastructure.
